# CSR

## Masbate Island (Philippines) School Construction Project

We have constructed two schools on Masbate Island (Philippines) as part of our CSR activities.

Through this project, we have provided a comfortable learning environment for children consisting of classroom buildings, study desks and chairs, learning equipment and learning materials.

Through our participation in Plan Japan, we have also constructed two classroom buildings equipped with male and female toilets, provided classroom equipment and materials such as chairs and desks and installed an alloy iron rainwater tank at Itonbato elementary school in the Philippines. We have also provided exercise and play equipment and construct a pathway through the school grounds as additional activities.
